EDUCATION

Bachelors in Computer Science and Engineering – Data Science

Anurag University
cgpa - 9.53

2023 – 2027
Hyderabad, India

Pre- University Course (PUC)- PCMCs

S B G N S Rural Comp PU College
percentage- 96.67

2021 – 2023
Chickballapur, India

Secondary School Certificate (SSC)

PCMR EM School
gpa- 10

2020 – 2021
Nagaluru, India

PROFILE

Computer Science undergraduate specializing in Data Science with strong skills in Python, SQL, and R. Experienced in data analysis, visualization, and building dashboards using Tableau and Power BI. Proficient in problem-solving, data structures, and software development fundamentals, with a keen interest in developing scalable and data-driven solutions.

PROJECTS

Library Management Data Analysis Using R

Analyzed and visualized library management data using R to study book availability, borrowing patterns, overdue returns, branch performance, and book popularity. Performed data cleaning, manipulation, and visualization using dplyr, tidyr, and ggplot2 to generate actionable insights for better library operations and decision-making.

COVID-19 Impact Analysis Dashboard

Developed an interactive COVID-19 dashboard using Tableau to analyze global confirmed cases, deaths, recoveries, and regional trends. Cleaned and preprocessed CSV data in Excel, created KPI cards, maps, bar charts, scatter plots, and comparative visualizations to identify pandemic hotspots, recovery rates, and death patterns.

SKILLS

- **Programming:** Python, Java (Basic), R
- **Web:** HTML, CSS
- **Database:** SQL
- **Tools:** Tableau, Power BI
- **Concepts:** OOP, Problem Solving

CERTIFICATES

- **Introduction to Cybersecurity** – Cisco Networking Academy: Foundational knowledge of cybersecurity, threats, and safe digital practices.
- **Python Essentials 1** – Cisco Networking Academy: Core Python programming concepts including syntax, control structures, and functions.
- **Python Essentials 2** – Cisco Networking Academy: Advanced Python concepts including OOP, modules, exceptions, and file handling.
- **CCNA: Introduction to Networks** – Cisco Networking Academy: Networking fundamentals, IP addressing, and basic network configuration.
- **R Programming Comprehensive Bundle: Infosys- Springboard** – R programming basics, EDA, statistical analysis and data visualization.
